### Premier Bonar Law Resigns

London, May 21.—Eight Hon Andrew Bonar Law, the prime minister, and his resignation to the king last night because of ill-health; he was unable to present it personally. Thus end the Canadian actor's premier's brief and eventful administration, which ends with important and perplexing problems, particularly Great Britain's difficulties with France and Russia in Mesopotamia.

The king will summon one of the Conservative leaders to form a new cabinet, probably on the 25th, and the new prime minister will be appointed.

The critical period is over when parliament is dissolved and new members of the government are in London.

To-morrow, when the results of Bonar Law's consultation with physicians in Paris became known, it was widely expected that the country was to be prepared for a general election, and will await developments with anxiety and regret over the future of a troupe of a troupe.

One notable result of the crisis is that the king has no enemies and is popular with all classes of people. He accepted his high office with reluctance; he leaves it amidst unforgiving regrets on the part of both supporters and opponents.

The exact number of injured has not been ascertained, although five persons, suffering from serious injuries, are in hospital, and others are in their homes recovering from burns, bruises and in some cases fractured arms and legs.

One man, a 41-year-old school teacher, was killed when an open lamp fell into a burning structure on fire. Seventeen men and fifteen women also lost their lives.

The fire, according to eyewitnesses, started when a hanging lamp over the stage fell and burst, breaking many glass fittings. The audience, numbering about 300, mostly children, became panic-stricken.

A jam resulted, the stairway collapsed and scores were buried into a chair or lamp and the steps. Some were impaled in jagged metal from the broken stairs. Some from the splintered stairway caught fire. Dozens killed in the fall parish.

In one grave in a country church yard near here are the bodies of 59 men, women and children—victims of the village of St. Shotts. All of the persons on the village board were saved.

A message from the ship at Ceylon immediately after the accident told of the Marvala's plight. A second message received an hour later reported the boat all out and the passengers safe. It was understood that the boat had been towed to the nearest port, and that the crew had been rescued. No further news was received from the Marvala, but it was believed that all on board had taken to the boats or that her wireless equipment had been crippled.

The Marvala, a vessel of 11,417 gross tons, was formerly the Allan Line's Ceylon.

The Marvala is in the Colonies, and equipment, which was now more highly prized in the province. Mr. Headley also gave an account of the condition of his ship, and the efforts he has made to obtain a block of honest land.

There are between forty and fifty families in the colony. Mr. Headley is in correspondence with the authorities, and has written to the government that an endeavor should be made to obtain a block of honest land.

The colonists are to be paid out and the passengers are to be paid out, and the passengers are to be paid out.

### Hanging Lamp Falls Setting Fire to Building

London, May 18.—Seventy-three men, women and children lost their lives in a fire which last night destroyed the school building at Cleveland near here, and a check is being made to determine whether five others perished.

More than 100 persons were buried in the ground near the scene of the disaster, and the bodies were identified by the names of the deceased.

The school, which is in the charge of the Central News, was in the custody of the Canadian government, and will be used for a temporary school until the new building is completed.

### Occupational Work at the Mental Hospital

Unusual success has attended the introduction of occupational work for the patients at the Mental Hospital at Ponoka, which has been opened since the first of this year. This work is in charge of Miss Dingman of Calais. For three years in charge of similar work for the Soldiers' Civil Rehabilitation Board, Miss Dingman has taught basketry and wicker work, and the work turned out by the patients is of good quality.

The object of the work primarily of course is to benefit the patients morally by giving them something to do and to occupy their time. The work has proved very beneficial to the patients. The products are at reasonable prices, and thus a fair amount of money is given to the patients themselves.

The work is not on a commercial basis, since the patients are trained, and the products they become proficient in such as basketry, wicker, chair backs, etc., are given to the patients.

Miss Dingman, who is in charge, has a class room that is used for the patients to work in, and a special class is given to the patients.

combe Hospital on Sunday.

They were accompanied by Mrs  
McWilliam's mother, Mrs. Berg-  
who will probably reside here per-  
manently.

K. Kondou, of Gruard, was a  
guest of Mr and Mrs A. D. Craw-  
ford, of Ponoka, on Saturday.

Kondou has been on a visit to  
friends in the States, and made a  
stop-over while on his way home.

Dr. Pollybank took a car load  
of women out to the hospital  
home of C. C. Reed on Sunday.  
Among the number were Mrs  
Pollybank, Mrs. Henry, Mrs  
Service and Miss Evelyn Service.  
The fatted calf was sacrificed, and  
the cows returned home about  
midnight heavy laden.

The death took place at her home  
in Toronto, on May 9th, of Mrs E.  
Trotman, widow of S. Trotman  
and mother of Bessie, and Mrs  
J. Cook. Deceased lady, who was

That she will have success in

of her Ponoka friends.

Several parties have taken down

can easily do damage.

night to patrol the streets and  
keep the heavy shoes without  
cracking, peeling, or turning white.
